

this month:
sushi

There are some foods that most kids don't like, but many adults do. Why? It's a mystery! Take sushi – if you dare. Kids will sometimes eat California rolls or other types of sushi that don't contain raw fish. But that's the thing about real sushi: it contains raw fish! That's something that takes some getting used to.

But maybe some day you'll see that in its pure form – some simple combination of raw fish, rice, and vegetable – sushi is nutritious, delicious – and even artistic!

Brain Ticklers

What is the largest living ant in the world?

(Hold the page upside down and read it in a mirror for the answer!)

1 AND ONLY!
Only one creature can claim to have both the longest neck AND the longest tail of any land animal - the giraffe. Its neck can grow to 7 feet long and its tail up to 8 feet long!

Thanks for your business this year!
Have a great summer!
