Topper Lunch

Where to find serving lines:

- The traditional cafeteria area
- Two serving areas in The Grand Topper Hall
- First floor by the elevator in the academic wing-Second chance breakfast only
- Second floor by the elevator in the academic wing-Second chance breakfast only
- A full meal vending machine by room 175
- A full meal vending machine by room 213

To help the lines move quickly, keep money in your meal account.

The lines will move much more quickly if the cashiers do not have to handle cash and dispense change.

Our goal is to have food selections for all students in all the areas through the entire serving time.

However, it may take time to learn where students want to eat and to place food accordingly.

Initially, the menu will be limited to student favorites to quickly provide service.

As we learn student patterns and programming better, we will see where the students are eating and where the needs exist. We will expand selections as things settle into the new normal routine.

Please be patient as we work to provide you the best choices and service.

Watch the television monitors around the serving areas for menu selections and other announcements.

Please give your comments or suggestions to our staff and we will do our best to accommodate them.

**Have a great year!
Go Toppers!**
