**Q: How much sugar do you eat?**

**A:** If you eat like most Americans, you consume over 20 teaspoons of added sugar every single day, or 115 pounds a year. That's just what we get from processed food and drinks, without ever actually dipping a spoon in the sugar bowl. Current guidelines recommend no more than 6-9 teaspoons of added sugar a day. Want sweetness without the side effects? Get your sugar the natural way - from fresh fruit.

## ★ OUR NATION'S HISTORY ★

It doesn't sound very American, but the White House in Washington, D.C. was originally known as the Presidential Palace. It's also been known as the Presidential Mansion, the Executive Mansion, and the President's House. It didn't become officially known as the White House until the time of President Franklin D. Roosevelt in the 1930's.
