plate?**

Q: What's the GOOFIEST thing about a GOOBER?

A: "Goober" is another name for a peanut, and the goofiest thing about a peanut is that it's not really a nut at all! Peanuts are really beans that grow under ground. Real nuts are sometimes called "tree nuts."

This image might look like a spiral, but it's not — it's a series of circles. The background makes it APPEAR to be a spiral. Try tracing one of the lines if you're not convinced. You won't move inward or outward — you'll just go around in a circle.
